## Career Objective

I am MD FAHIM. I am currently studying and I am very passionate about creating websites. I enjoy learning various things related to how websites are used. I can manage tasks efficiently and I don't like to wait without reason. I can use React.js skillfully and I am currently learning Next.js to use it more effectively.

When I encounter something new, I feel a little scared at first, but after using it, I find it very useful and understand how it works. I enjoy creating websites because it allows me to be creative, have fun, and connect with other people. I want to see myself as a developer in my career, and I want to shape my life according to this goal.

## TECHNICAL & SOFT SKILLS

**Expertise**: JavaScript, ES6, React.js, Firebase, Tailwind, Html5, Css5
